*Simple designs with a sense of calm.*

Founded by husband and wife team Paul and Maria Le Mesurier, WoodEdit is dedicated to making pared-back, classic pieces of furniture. Designed by Maria and hand-crafted by Paul, from responsibly-sourced woods in their workshop at their home in Uppark, West Sussex, each made-to-order piece starts from rough sawn wood before it's honed into a beautifully designed piece for the home – from large pieces like tables and kitchen islands to serving boards, boot racks and peg rails. My Rock 'n' Roll Friend by Tracey Thorn

Tracey Thorn has been friends with Lindy Morrison for 37 years. They met backstage at London's Lyceum when Lindy was the drummer with cult band The Go-Betweens and Tracey was at the start of her musical adventure. The pair immediately bonded over gossip and gigs, feminism and the frustrations of being a

woman in the macho world of music. It's a beautiful look at a long-standing relationship, clear-eyed and honest as quiet Tracey, shares the stories of bold, brave Lindy, and pinpoints the joy of their connection – “We're alike and unlike, but I think we see each other and being seen is everything.” (Canongate)
